

## **FALLING WATERS II NEWS**

On July 23, **68** out of **90** Owners Voted and the vote was unanimous for the Deep Well/Irrigation “Capital Improvement” for use in our Condo Association.

Thank all of you who responded. Now we will start the process of Implementation of this system. The implementation will still take some time, due to the requirements involved; e.g. Attorney Review of Contract, Permitting required in Collier County, etc.

We are looking forward to the completion of this project. Many owners have been working on this project for several years—all of us “salute” their persistence and efforts!

Mary Cox, Pres. FW II
